

9 September 2014

Good day Gerald (Constellation Computers)

The Dermatech team would like to extend a much deserved thanks for restoring our reception computer's software so promptly, by utilizing the stored mirror image.

It would have been a long inconvenience and bigger financial loss if our systems were not insured through your software insurance.

We are truly relieved that we made the wise decision to ensure our software with you!

Keep up the good work!

Kind regards,

The Dermatech Team
